OBEROI WOOD INDUSTRIES

We are one of the India's leading manufacturers of engineered wood products.

Our success is driven by our people and their commitment to get results by operating responsibly, executing with excellence, applying innovative technologies, and capturing new opportunities for profitable growth.

Established in 1991, we have evolved into an integrated manufacturing unit for high quality panelled wood products over the past 30 years.

From sourcing to delivery, all aspects of our manufacturing process are controlled in house to maintain the highest standards of quality.

We are guided by a simple philosophy of building value-for-money products by improving upon our existing product portfolio through extensive research and customer feedback.

United- A Bond of Trust, is our simple guiding philosophy, it's a promise that we have made to ourselves and with our customers over the last 30 years.

We offer you a versatile range of plywood to choose from, be it for a residential, commercial, or Industrial project. Our utmost priority is to offer quality products and the best plywood to help you embellish your dream project.

All our products are manufactured as per the ISI standards and guidelines. All our products are tested in a BIS accredited in-house lab with trained professionals from IPRITI and FRI.

Our QR code-based authenticity check prevents counterfeiting and helps our customers in making informed purchase decisions.

Make the right choice, place your trust with United Plywood and build a better home for your loved ones.
